CDC Admits 5,800 FULLY VACCINATED People Became Infected with COVID-19 and 74 Died

In a clear example showing how the CDC and Big Pharma control the corporate media, the CDC today apparently sent out emails to the major corporate media outlets allegedly explaining that about 5,800 fully vaccinated people have still come down with COVID-19 after being fully vaccinated, and 74 people fully vaccinated against COVID-19 have allegedly died from COVID-19.

In typical fashion of how the CDC operates, they attempted to spin these numbers as something positive, by stating how many people have now been “vaccinated” against COVID, and that one’s chance of getting COVID is significantly

reduced if you receive the injection.

As I saw this statement start appearing everywhere in social media, I tried to find the source for this alleged CDC information, but all I could find were various corporate media outlets stating that the CDC had told them this directly. Apparently this is not on the CDC website anywhere.

Some examples:

CNN:

The US Centers for Disease Control and Prevention reported that about 5,800 people who have been fully vaccinated against COVID-19 have become infected anyway.

Out of those people, 74 died and 396 [7%] required hospitalization. Many were seriously ill, the CDC reported.

It's the first indication from CDC of how effective the vaccine is in real life — and the first indication the vaccines do not protect completely against severe disease and death.

"So far, about 5,800 breakthrough cases have been reported to CDC. To date, no unexpected patterns have been identified in case demographics or vaccine characteristics," **the CDC told CNN via email.**

The HILL:

The Centers for Disease Control and Prevention (CDC) said the agency has documented about 5,800 "breakthrough" COVID-19 cases among the millions of Americans who are fully vaccinated, totaling far less than 1 percent of fully vaccinated people.

"Vaccine breakthrough infections make up a small percentage of people who are fully vaccinated," **the CDC told The Hill in a statement.** "CDC recommends that all eligible people get a COVID-19 vaccine as soon as one is available to them."

Yahoo:

The Centers for Disease Control and Prevention has found about 5,800 cases of COVID-19 infections among people who have been fully vaccinated in the U.S., according to a new report.

CDC officials tell Yahoo Life that as of April 13, about 5,800 breakthrough COVID-19 infections — meaning someone who was fully vaccinated against the virus still contracts COVID-19 — have been reported to the CDC among the more than 66 million Americans who have been fully vaccinated. Of those, 396 (or 7 percent) required hospitalization and 74 people (0.0001 percent) died.

And as is usual with the Pharma-funded corporate media, there was no investigative reporting done to challenge or even question the data that the CDC was providing.

So let me do that. (The CDC did not send me a copy of the letter for some reason.)

For example, how do we know that there are only "5,800 breakthrough COVID-19 infections" among 66 million fully vaccinated Americans? How did the CDC arrive at that figure, and where are they getting their data?

These experimental COVID injections have only been out in the public for about 4 months now, and the vast majority of the injections have occurred within the past few weeks.

These are experimental pharmaceutical products with very little testing done, and the CDC has changed the amount of time they claim it takes for full immunity to start after "vaccination" several times already. They originally said two

weeks after the first injection, and full immunity after the second one. Then it was changed to 4 weeks. Now, they are saying it can take up to 6 weeks.

So there really is no way the CDC can make any definitive statements at this point as to just what the percentage of fully vaccinated people will be who still get COVID and still die from it.

Earlier this week, CDC Director Rochelle Walensky actually stated that the COVID “vaccines” are “too slow” to stop an alleged surge of COVID cases in Michigan, because it takes “weeks” for them to start working.

Centers for Disease Control and Prevention director Rochelle Walensky said Michigan should put coronavirus restrictions back in place to stop the spread of COVID-19.

“Really what we need to do in those situations is shut things down,” Walensky said during a press briefing on Monday. “I think if we tried to vaccinate our way out of what is happening in Michigan, we will be disappointed that it took so long for the vaccine to work – to actually have the impact.” ([Source](#) ^[2].)

“We know that if vaccines go in arms today, we will not see an effect of those vaccines, depending on the vaccine, for somewhere **between two to six weeks**,” Walensky said. ([Source](#) ^[3].)

Anybody with any kind of critical thinking skills can clearly see that this is pure PR the CDC is spinning to their corporate media lap dogs.

They want to try and convince the U.S. public that even though people are still getting sick and dying from COVID after being fully vaccinated, that they still should get vaccinated anyway, and then agree to new lockdowns as cases start going up again because the vaccines “work too slowly.”

Of course they want you to ignore the fact that in states that have opened back up and stopped mandating face masks, that cases and deaths, even by their own corrupted statistics, are now going down.

How long is the American public going to put up with this insanity?

People are DYING from these COVID “vaccines” and the CDC is now forced to admit that these vaccines don’t even work in many people.

And whatever small businesses that are still left and have survived the first round of lockdowns last year will surely die if lockdowns are required again, unless enough people wake up finally and say “enough is enough – we will NOT comply!”

No forced vaccination.

Not in America.

Join and support the National Vaccine Information Center [70]!

Canadian physician Dr. Andrew Moulden provided clear scientific evidence to prove that every dose of vaccine given to a child or an adult produces harm. The truth that he uncovered was rejected by the conventional medical system and the pharmaceutical industry. Nevertheless, his warning and his message to America remains as a solid legacy of the man who stood up against big pharma and their program to vaccinate every person on the Earth.

Dr. Moulden died unexpectedly in November of 2013 at age 49.

Because of the strong opposition from big pharma concerning Dr. Moulden's research, we became concerned that the name of this brilliant researcher and his life's work had nearly been deleted from the internet. His reputation was being disparaged, and his message of warning and hope was being distorted and buried without a tombstone. This

book summarizes his teaching and is a must-read for everyone who wants to learn the "other-side" of the vaccine debate that the mainstream media routinely censors.
