An elderly man collapsed and died just 25 minutes after receiving a Covid-19 vaccination in New York City on Sunday morning. The man who was in his seventies, fell as he left Manhattan's Jacob Javits Convention Center shortly after receiving the jab. New York State Health Commissioner Dr. Howard Zucker said that:

"Initial indications are that the man did not have any allergic reaction to the vaccine."

First responders assisted the man, who has yet to be named, but he died a short time later in hospital. An investigation is now underway. In New York, those who receive the vaccine are subject to a mandatory fifteen minute waiting period, in case there's a reaction to the jab. Zucker told reporters that the man seemed fine and was cleared to leave the building. It's not known which Covid vaccine he

received. (<https://richieallen.co.uk/wp-content/uploads/2021/02/download-4.jpg>)

Zucker told journalists that he believes the vaccine is safe, and that *"together with continued vigilance including wearing a mask and social distancing, it will bring an end to this pandemic."*

How can Zucker possibly know that the vaccine is safe though? Is he a clairvoyant? Absent an autopsy, how can he rule out that the man had an allergic reaction? He doesn't know.

On Saturday, Drene Keyes, a 58 year-old Virginia woman, died shortly after receiving the Pfizer vaccine. Her daughter said that her mother started vomiting, had trouble breathing and then died hours later. Incredibly, officials in Virginia have said that the vaccine isn't to blame. Again, how could they possibly know?

Dr. Vernon Coleman, over at <http://www.vernoncoleman.com> (<http://www.vernoncoleman.com>) has been meticulously documenting reports of adverse events and deaths. They are mounting. I will not be having any of these vaccines and I have urged my family and closest friends not to have them either.

Yesterday, I was trying to be friendly to a taxi driver and was telling he that I was concerned about my elderly mother having the vaccine because I didn't think they were proven safe for the elderly; she said that 'people like you are making the virus spread'. I told her the vaccine doesn't stop it spreading but she accused me of reading 'fake news'. She was caustic. When she gave me my change she informed me that she had disinfected it.

People are getting more entrenched in their views. I found it distressing also because my family have been asking if my mother has had the vaccine. I hadn't been out for weeks and the masks have increased everywhere, including cyclists; taxi drivers; bus drivers and people walking about in the open. There is increasing intolerance to any kind of dissent. I will be careful who I talk to; if they haven't woken up to anything by now they never will.

I suspect the psychologists and psychiatrists on the government advisory teams are monitoring this autocratic mindset closely....

And doing every bleedin' thing they can to increase the uniformity. Totalitarianism doesn't come by government decree. It comes by popular compliance.

Gives a wholly new, existential meaning to: 'move along. There's nothing to see here.'

(N.B. I'm not making light of the poor man's death. It's a crime against humanity.)

Didn't realise that death was not an allergic reaction.

I've seen probably about a dozen people on FB announcing they've had their vax.....and then umpteen comments from friends and family saying "congratulations" "well done you" and "can't wait to have mine", It's absolutely mind boggling how brainwashed people have become.

Even when you show stories like this one, people just blank you or tell you it's a one-off.

I just want to reach through my PC and slap each and every one of them.

Agree with you.

At least there is still some common sense left.

Yea, and the country is held out to the world as some 3rd world slum. Sounds much more civilised than 'take the job or lose your job'. **18**

Our Operating System

Recognizing the broad potential of mRNA science, we set out to create an mRNA technology platform that functions very much like an operating system on a computer. It is designed so that it can plug and play interchangeably with different programs. In our case, the “program” or “app” is our mRNA drug – the unique mRNA sequence that codes for a protein.

(<https://www.modernatx.com/mrna-technology/mrna-platform-enabling-drug-discovery-development>)

Moderna – Modified Endogenous RNA

what could possibly go wrong?! Trust the "science".

first jab... second jab... booster ... monthly update patches ... connected to cloud hive mind is good for ya. No need to carry a cell phone in your pocket.

Get instant updates directly to your brain (or whatever is left of it)

not toxicinated yet?

we're al in this together.

YOU – have our OS injected in your ass, "WE" – run the OS ...for your safety of course

Because they have indemnification

They don't have to say it's got anything to do with the vaccine.

They are not liable for any idiot who takes it.

All they see is \$\$\$\$\$\$

Ya' gotta be a ***Sucker*** to believe this *Zucker*.

Yeah.

It's inverted reality, 1984-Orwellian Newspeak.

As always the Truth is 1984-exact opposite of what the msm spits out.
